

About Us

We were initially founded to provide a variety of industries with quality contract labour services, that were flexible and easy to access.

Along with that came the drug and alcohol testing. As businesses evolve, we now offer a range of HR services, including office temping, full Recruitment and employment forms and templates.

We understand that your business is only as good as your staff and your staffing levels!!

We are passionate about ensuring that businesses not only have the right staffing levels, but they also have the right staff. You can be assured that with any service we provide, we will bend over backwards to ensure we not only fully understand your needs, but we also deliver on those needs.

Contact any of our staff, pop in and see us or give us a call on 03 577 9043.
